+1 (206) 605-3050

Go-to-Market Strategist who builds end-to-end marketing infrastructure and manages large-scale campaign portfolios. Optimizes CRMs and scales automated systems combining deep data and automation expertise across Coding and Analytic tools to turn pipelines into reliable, revenue driven systems.

WORK EXPERIENCE

Ad Ops Specialist

DoorDash, Sage Group, Los Angeles — Aug'25 - May'26

- Built an agentic monitoring system integrating Snowflake data, diagnosis, and automated error flagging eliminating manual monitoring overhead across \$1M+ in active campaigns spanning Homepage Banners, Promotions, and Sponsored Listings.
- Own revenue operations for a \$2M+ campaign portfolio across ENT, CPG, and NV verticals, monitoring delivery health and preventing zero-delivery scenarios through proactive optimization.
- Drive \$2M+ in spend efficiency across DoorDash and Merchant-funded budgets by optimizing pacing, bid performance, and signals, maximizing delivery ROI and preventing underspend at scale.
- Serve as operational point-of-contact for campaign escalations, resolving MSID drift, POS cart errors, and setup blockers to maintain delivery SLAs and targeting accuracy across high-value accounts.

Growth Marketing Specialist

Field Nation, Seattle — Dec'23 - Jul'24

- Overhauled Salesforce and HubSpot by deploying custom automations and streamlined workflows, improving pipeline visibility and forecasting accuracy by 30%.
- Led cross-platform data standardization across CRM and marketing systems, driving a 22% increase in lead conversion rates through improved data integrity and continuous monitoring.
- Automated ZoomInfo enrichment across Outreach and Salesforce for real-time contact updates, resulting in a 20% lift in email deliverability and more efficient sales prospecting.
- Designed campaign influence models to evaluate marketing effectiveness, lifting overall ROI by 8% through data-driven strategy optimization.

Marketing Automation Specialist

PitchBook Data, Seattle — Aug'21 - Aug'23

- Redesigned the end-to-end marketing lifecycle funnel, improving campaign tracking, lead scoring, and nurturing workflows resulting in a 15% boost in lead tracking accuracy and overall system health.
- Built scalable automations in Python, Marketo, and Salesforce, improving operational efficiency by 20% and enabling faster campaign deployment cycles.
- Executed daily campaigns to 60K+ contacts with 98% deliverability and 17% open rates, and implemented database health assessments leading to increased open rates by an additional 8%.
- Cleaned and deduplicated a 4M+ record Marketo database, improving email campaign performance by 12% and reducing storage costs by 25%.
